

Chiropractic Care of Minnesota, Inc.

Policy Title:	Office Standards, Protocols and Availability		
Policy Number:	CRM - 008	Effective Date:	05/06/10
		Last Revision Date:	11/20/13
		Last Approval Date:	12/05/13
Responsible Area/Individual:	Credentialing		
Purpose:	To outline minimum credentialing and participation criteria pertain to chiropractic offices.		
Regulation Reference:			

POLICY:

It is the policy of Chiropractic Care of Minnesota (CCMI) that network practitioners adhere to established office standards and protocols as a condition of practitioner participation in the CCMI network.

PROCEDURE:

In conjunction with and in addition to the Landmark chiropractic credentialing and recredentialing criteria, CCMI has established additional minimum office standards for participation in the CCMI network.

A. Office Standards

1. The chiropractic office must have a professional appearance to provide a safe, clean environment for patients, visitors and staff. The facility must be a non-smoking environment.

2. The chiropractic office must have a reception/waiting room with adequate seating for multiple individuals other than the chiropractic staff.

3. The chiropractic office should be staffed with a staff person who is present during patient contact hours. Additional staffing is required if the chiropractic office is treating 30 or more patients per day.

4. The chiropractic office should have clearly marked office sign(s) that identifies it as a chiropractic facility or the provider as a chiropractor.

5. The facility must have at least one private examination/treatment room that is clean, neat, properly equipped and provides privacy to the patient.

- a. Facilities that only have open-bay treatment arrangements are ineligible for network participation.
6. The chiropractic office must show evidence of practicing appropriate hygienic measures i.e. hand washing facility for staff, use of disinfectant on machines and tables, use of gel electrodes on therapy equipment, face paper on tables.
7. The chiropractic office should not be associated / owned by a gym or health club and must not be a mobile service vehicle.
 - a. If housed in a gym or health club, the facility must have its own entrance, private reception area and treatment rooms and meet all the minimum requirements outlined in this policy.
 - b. Chiropractors who are employees of a gym or health club are not eligible to participate as network providers.
8. Home offices must be properly licensed if the jurisdiction requires it to be licensed, separate from the home and has the standard configuration for an office in relation to the majority of the other chiropractors in the geographic region.
9. The chiropractic office must have a rest room available for a patient that is clean and neat.
10. The facility in which the office resides must be current with all federal, state and local building regulations, including fire safety & suppression and handicap accessibility expectations.
11. The Chiropractor must maintain general liability insurance for coverage within the premises where services are rendered.
12. Patient files/records must be easily retrievable by the staff and are protected from public access.
14. Nutritional supplements must be stored so they are out of reach of children.
15. If practitioner performs animal chiropractic, all state guidelines must be fulfilled to include separate waiting room, treatment rooms and entrances.

B. Routine Office Procedures

1. The Chiropractor must incorporate differential diagnosis, which meets or exceeds community standards or those set by CCMI as an integral part of the patient intake procedures and not limit the diagnosis/ clinical impression solely to the detection of subluxation. The assessment must be documented in the patient record.

2. The Chiropractor shall be able to demonstrate that patients are referred to, or consultations are conducted with other specialists and physicians when appropriate and clinically necessary.

3. Any one Chiropractor, regardless of the size of the facility, must not on average treat more than ten patients per hour.

C. Availability

1. A non-emergency/ non-urgent care patient must be offered an appointment within five (5) days from the time a request for appointment until treatment is rendered.

2. A patient with urgent needs must not wait more than twenty-four hours from the time of request for appointment until treatment is rendered.

3. Patients must not wait in the reception room for treatment for more than an average of thirty minutes.

4. The Chiropractor or staff should return urgent patient calls with appropriate instructions within thirty minutes of the initial outreach.

5. The facility must have an answering machine or service available 24 hours per day seven (7) days per week that clearly identifies the office and contains directions for obtaining care if the Chiropractor is not available and includes instructions regarding emergency services care.
